THINGS YOU SHOULD KNOW

Blocking—Pin the garment, with rust proof pins, wrong side out, on a pressing board in exactly the measurements desired. Place a damp cloth over garment and with a moderately hot iron, press lightly, allowing the steam to go through. Lay on a flat surface until thoroughly dry.

Buy Enough—Be sure you buy enough yarn of the same lot number to complete your garment! Otherwise you may find it difficult to match your yarn later on.

Needle Gauge—When making a garment—work a swatch, using the needles called for to determine whether or not your work measures the same number of stitches to the inch as given in the scale. Change size of needles accordingly.

Binding Off—Before binding off shoulders or top of sleeves, always K 2 tog, or P 2 tog, whichever it might be, before casting off stitches. This makes a rounded edge and will make a neater appearance when sewed. Always bind off loosely.

When Using Colors—In changing colors always K the first row on right side regardless of pattern.

When Sewing Seams—When sewing seams, always split 4 Fold Yarn in two parts—this will make a neater seam when blocked.
